

Deanshanger Primary School

Website Policy

Every maintained school must publish specific information on its website to comply with The School Information (England) (Amendment) Regulations 2012. The school's website is designed to share this statutory information alongside further non-statutory information to provide a rich, relevant and up to date picture of various aspects of school life. www.deanshangerprimary.co.uk

A governor is assigned to working alongside the head teacher to ensure that the site meets all statutory requirements and has a plethora of additional information that is 'desirable' for a parent/carer, visitor or prospective parent. This review takes place every six months and updates and changes are immediately made.

We encourage current and prospective parents and carers to regularly review the school website as we use it as one of our major sources of information and communication. We strive to reflect the vibrancy of school life on our website.

Our school website was completely redesigned and re-launched July 2017.

Child Protection Policy

The School operates the following policy on its website regarding the use of photographs, to ensure the privacy and safety of pupils at the school:

Where pupils are named, only their first names are given;

Where a pupil is named, no photograph of that pupil is displayed;

Where a photograph is used which shows a pupil, no name is displayed.

By observing these points, the school ensures that visitors to the website cannot link images of pupils to names of pupils.

The school follows a policy of seeking parents' permission before using images which show pupils on the website. No other private information about pupils is ever published on the website such as surnames or contact details.

We are committed to safeguarding the privacy of our website visitors. We will not without your express consent provide your personal information to any third parties for the purpose of direct marketing.

Third party websites
