

Deanshanger Primary School Sports Funding Statement 2018/19

This document will ensure that the parents/carers, governors and others are made fully aware of the PE and sporting provision at Deanshanger Primary School

Summary Information

Context

Deanshanger Primary School is a two form entry village school. We have high aspirations and ambitions for all of our children and we believe that there are no limits to what our children can achieve and that no child should be left behind in any area of school life. We strongly believe that all pupils leaving our primary school should be physically fit with the knowledge, skills and motivation necessary to equip them with a lifelong healthy active lifestyle and participation in physical activity and sport. This includes our dedicated approach to healthier child initiatives with focus on a mental and physical well-being in line with information from the 'Childhood Obesity - a plan for action', August 2017.

The governors endorse a holistic approach to the development of sport and physical activity for all. As with all subjects, we are keen to enhance the quality of teaching and learning of PE at the school making the best use of resources to enhance our PE provision. In September 2018 we received the Gold Sports Award; an achievement that we are very proud of and keen to maintain and improve to provide a breadth of rich experiences for a wide audience of children.

What is Sports funding?

The government has allocated funding for the academic year to improve the quality of provision of physical education and sport in primary schools for all of our pupils. The funding is ring-fenced which means that it can only be spent on PE, sport provision in school and opportunities to develop and sustain healthier life styles.

Academic Year 2018/19 Numbers on roll – 380 Total sports funding allocated – £16,000 + £10 per pupil in the school = £19,800

(7/12 of the funding allocation will be received on 30 October 2018; 5/12 of our funding allocation will be received on 30 April 2019)

Lead for Sports Funding – Mrs Rachel Rice Head teacher **Lead Governor** – Mrs Michele Fernandez

Managed by the School Business Manager and monitored and planned by the PE leaders – Trevor Gregory and Sophie Peers and the Curriculum Committee of the Governing body.

Objectives of the Sports Funding

Using the sports funding, we expect to see an improvement in the following 5 key indicators –

1. The engagement of all pupils in regular physical activity kick starting healthy and active lifestyles. The ties in closely with our work to support healthier child type initiatives and health and wellbeing.
2. The profile of PE and sport being raised across the school as a tool for whole school improvement.
3. Increased confidence, knowledge and skills of all staff in teaching, PE and sport. Staff access training opportunities and continued professional development.
4. Broad experiences of a range of sports and activities offered to all pupils. Our Forest School sessions support this key indicator.
5. Increased participation in competitive sport.

The funding is used to make additional and sustainable improvements to the quality of PE and sport that we, at Deanshanger Primary offer. We use the premium to develop and add to our regular sports activities including increasing pupil's participation in the School Games. We also use the funding to make improvements now that will benefit the children joining in future years. It is not used to employ coaches or specialist teachers

to cover PPA as this would come from our core budget. The minimum national curriculum requirements are taught under our regular school budget; this includes the teaching of swimming.

Swimming and Year 6

To report against statutory requirements -

There are 60 children in Year 6. Before the top up swimming opportunities (May/June 2019), 33 children meet the national curriculum requirements to swim competently, confidently and proficiently over a distance of 25 metres. 25 use a range of strokes effectively and 25 perform self-rescue in different water based situations.

Ofsted

Under the Ofsted inspection framework, inspectors will assess how effectively leaders use the primary PE and sports premium and measure its impact on outcomes for pupils and how effectively governors hold them to account for this. As a school, we are required to publish details of how we spend the funding and the impact it has had on pupil's PE and sports participation and attainment.

Feedback from last Ofsted visit (Nov 2016)

"The additional government funding for primary physical education is used to good effect to improve teachers skills in teaching physical education and to provide a wide range of sporting activities for pupils such as orienteering, tag rugby and goal ball".

The information held on the school website (www.deanshangerprimary.co.uk) for sports funding did not meet statutory requirement and hence the review and detail of this document.

Values underpinning our provision

Nearly every school newsletter (every 2 weeks) has input from sports teams and play leaders.

Most able provision

The most able children are given the opportunity to compete in tournaments with other schools but this is alongside access to all children. Achievements outside the school setting are celebrated in school assemblies and on the dedicated PE display board in the school hall. Players that are excelling are coached within school to support referring and coaching sessions.

Inclusion

Some children may be subsidised so that pupils do not miss due to financial constraint. There are no costs passed on to the children for joining competitive events and children receiving pupil premium funding are encouraged to use their voucher in order to partake in sporting clubs outside the regular curriculum. All pupils benefit regardless of sporting ability. We actively pursue opportunities to engage all children in activities and try hard to incorporate less traditional sports to extend the opportunities e.g., New Age Kurling. Our before and after school care, Wrap Club, provides structured sporting opportunities on a daily basis. Outside providers are supporting activities and staff professional development. Our sports and play leaders run interschool competitions.

Partnerships

We make use of collaborative means of working with our local cluster schools and for the last two years, we have considered our provision for School Games with extended provision, value for money and the number of competitions on offer, to support a cluster arrangement for the leadership. We are committed to ensuring that all partnerships have maximum impact on our children and allow us to provide as much as possible within the budget.

Anticipated spending for the current school year 2018-19

Item	Impact	Cost
<p>SKIP2BFIT programme and staff training http://skip2bfit.com/</p> <p>To use the programme as an additional free activity for children across the school.</p> <p>To provide a skipping rope for every child and adult in the school.</p> <p>To buy 2 jackets for skipping champions to wear for the week to promote progress and celebrate success.</p>	<ul style="list-style-type: none"> Improved fitness levels Impact on pupils' ability to learn through improving self-esteem, motivation, concentration and thinking skills across the curriculum. Raises Aspirations as children realise that the 'Yes Feeling' they get when they improve on their skipping, can also be achieved by improving in their class work Improves pupil's mental maths Improve number recognition Encourages Healthy Eating and supports improved attendance and time keeping. 	<p>£2000</p> <p>£40</p>
